XR Developer

Technical Artist

Email : geoffrey.minez@gmail.com

Home: Brussels, Belgium

Birthday : 31/08/1995

Languages: French, English
(intermediate)

Driving licence

PROFILE

C++ and Unreal Engine specialist with over 6 years of experience designing immersive real-time applications. Technical lead on a wide range of projects spanning virtual reality, virtual production, multiplayer experiences, 3D visualization and interactive applications.

Autonomous across the entire development cycle, from technical architecture to deployment, I design Unreal Engine solutions tailored to complex needs: synchronized multiplayer systems, VR platforms, production tools, pipeline integration, supervision interfaces and real-time applications.

My role goes beyond classic software development: I also work on technical infrastructure, workflow optimization, the integration of external technologies, and supporting teams to improve production.

Used to working on innovative projects that demand strong versatility, I combine C++ programming skills, Unreal Engine expertise and an understanding of the artistic and technical constraints of real-time 3D environments.

Skills

- C++
- Python
- Javascript
- Network & systems

Hobbies

- Video games
- Manga
- Cycling / Hiking
- Padel

EXPERIENCE

Poolpio - Production 21 - PixelKinetics

January 2021 - Today

Education

Stephen Ulibarri - **Unreal Engine
Gameplay Ability System**
2024

**Bachelor HE2B - Computer Science
and Systems, specializing in Networks
and Telecommunications**
2016-2020
